

Mr Alkaline
The Pure Water
Specialists

Humans **need** water to survive. **Our bodies are approximately 60% water** and so water must be consumed every day in order to help our immune system fight against diseases and allow us to function properly. At Pure Water Specialists Hunter, we specialise in delivering the cleanest, pure drinking water for your home, office or workplace by taking great pride in all aspects of water filtration.

Due to the taste of chemicals in water i.e. chlorine, one tends not to drink water.

Our business model has principles of life as its purpose for helping people to understand the **need to drink water.**

- To free the body of **toxic materials.**
- To free the body of **aches and pains** from drinking more water.
- Pure water helps the body with **elimination problems.**
- Water is a transporter **delivering nutrients** to the cell
- It is not generally understood that kidneys and the bladder **control the heart** that require water to function properly
- Your health depends on chemical free food; cook your vegetables in pure water.

We sell both Pure and Alkaline water in BPA free 11 or 15 litre bottles delivered to your door. Delivering right across the Hunter Valley from Scone & Muswellbrook through to Newcastle and Lake Macquarie as well as the Central Coast and Port Stephens.

Water Coolers & Dispensers as well as **water bubblers** for your home or office are available to rent or buy. Whether you're after a benchtop or a freestanding, hot & cold or cold & chill we have a cooler or dispenser suitable for any customer!

Looking for a more convenient option for your house then we also stock a large range of the highest quality countertop water filters, dual under sink and reverse osmosis filter systems. As well as these systems, servicing needs to be maintained and at the **Pure Water Specialists Hunter** we stock all types of water filter cartridges including showers, fridges and caravans. We can source what any customer needs and guarantee quality supply and install at the best price guaranteed.

The **Pure Water Specialists of the Hunter** are a local business based in the Hunter Valley of NSW. We work closely in partnership with a number of local businesses.

*Servicing the Hunter, Central Coast
and Port Stephens since 1992*

Our Water

Our **16Litre** bottles are environmentally friendly, convenient and affordable!

We recycle and reuse all of our bottles! This is of course after they are thoroughly sterilised! Our bottles are **BPA free** which means they're **bisphenol-A chemical free** and non toxic!

Getting bottled water for your home or office could be the best decision you make to ensure your family or staff are getting the daily water intake they need! Keeping hydrated has been proven to dramatically improve productivity!

Get hydrated today with a choice between Pure or Alkaline water!

Pure Water

Our Pure water is loved by all and you'll know once you try it! Put through a series of different cartridge filters, all the terrible odours, taste, sediment and heavy minerals & metals are removed from the water so it's essentially pure water!

We can deliver or you can pick up in store.
